PROFILE

I am Anshul Bhardwaj, recently completed my bachelors in technology in the field of Information Technology from Bharati Vidyapeeth's College of Engineering, New Delhi. Hardworking and passionate job seeker with strong organizational skills. Ready to help team achieve company goals.
Motivated to learn, grow and excel in the field.

PROFESSIONAL EXPERIENCE

07/2022 – 09/2022
New Delhi, India

Front-End Intern
OriginCore Tech
- Developed using CSS,HTML and JavaScript, to enhance user experience on web pages.
- Worked with senior developers to edit some existing projects.
- Participated in weekly meetings to present design ideas and showcase finished assignments.

ACHIEVEMENTS

- Solved 500+ DSA problems on leetcode. ⬈
- Participated in weekly and biweekly contests.

PROJECTS

Furniro - A Fullstack eCommerce App using React and Node.js
- Created a full stack eCommerce app with React for front end and Express.js for back end. Uses PostgreSQL to maintain database for complete web app.
- Supports functionalities like adding and removing items from cart where all the items are persisted in local storage of web browser.
- Lets user mark their favorite items and add them to the cart directly, which is also persisted in local storage. Provides various filtering and sorting methods.
- Supports google sign-in with Auth2.0 as well as manual login.
- Uses react query to efficiently fetch required data for all the functionalities mentioned above and react redux for state management.
- Implements payment gateway for smooth transaction.
- **Technology Used:** React.js, React Redux, React Query, SASS, Axios, Prisma, PostgreSQL, Node.js, Express.js, OAuth 2.0, RESTful API, Vercel ⬈
- **Source Code** ⬈
- **Live Demo** ⬈

Weather App in React
- Created a fully responsive weather app in React.js
- Fetches the current weather data for a given city using axios from Openweathermap API.
- Displays weather for given city with dynamic animated icons and background.
- **Technology used:** React.js, HTML, CSS, JSX, Axios, API

- **Source Code (Github)** ⧉
- **Live app** ⧉

2048 Game in Javascript
- Implemented a famous mathematical board game called 2048.
- A tile sliding block puzzle where the user's objective is to combine grids to create a tile with the number 2048. However user can continue the game and create up to 8192.
- **Technology used** : HTML, CSS, JavaScript
- **Source Code:** ⧉
- **Play the game here** ⧉

Dashboard App
- An online dashboard that displays any relevant data.
- Uses axios to fetch the relevant data and ChartJs to display it.
- Supports google sign-in with OAuth 2.0. Let's user add new profiles. Fully responsive in nature.
- **Technology used:** React.js, OAuth 2.0, ChartJs, JavaScript, Axios
- **Source Code** ⧉
- **Live Demo** ⧉

Hotel Management Application in C#
- Implemented a Hotel Management System using C#, database created in PostgreSQL, SQL connectivity with ADO.NET and Npgsql package.
- Supports features such as new user registration, new customer registration, editing and displaying employee details and allotting rooms with updated check-in and check-out dates.
- Hotel Management System ⧉
- **Technology used :** C#, .NET Framework 6.0, ADO.NET, PostgreSQL

EDUCATION

2019 – 2023 Paschim Vihar, New Delhi, India	**Bachelor of Technology** *Bharati Vidyapeeth's College of Engineering* • 8.98 CGPA
2006 – 2018 New Delhi, India	**High School And Standard XII Diploma** *Shri Ram Shiksha Mandir Sr Sec School* • 91.8 % in 12th standard (CBSE)

SKILLS

C++ | Data structures and Algorithms | React.js | React Redux | React Query | JavaScript | TypeScript | HTML | Cascading Style Sheets | SASS | Node.js | Express.js | Prisma | Axios | Context API | PostgreSQL | MySQL | C# | .NET | ADO.NET | Problem Solving | Object Oriented Programming | Frontend Development | Communication | Teamwork
